INTRODUCING THE KAYLAND ZEPHYR. Light, fast, and stable, featuring the Kayland Overinjected System - lightweight, breathable, abrasion resistant upper fabrics, overinjected with a supportive, protective, ergonomic PU exoskeleton. The result is reduced weight and enhanced structural support. Throw in the waterproof breathability and quick drying capability of the eVent®/Cocona® liner, the surefooted grip of the Vibram® Mars outsole, and Kayland's signature fit, and the Zephyr will blow you away.

KAYLAND IS A PROUD SPONSOR OF THE BACKPACKER 2009 GET OUT MORE TOUR.
